- For Questions contact Chris Trosen at 715-246-7784 ext 116 or Chris_Trosen@fws.gov

Location:

St. Croix Wetland Management District (WMD), headquartered out of New Richmond, WI, is part of the U.S. Fish and Wildlife Services National Wildlife Refuge System. The WMD is home to many local wildlife species and is a focal landscape for migratory waterfowl and other grassland nesting avian species in western

Wisconsin. The WMD is comprised of 43 Waterfowl Production Areas and 16 easements that encompass more than 8,100 acres within eight western Wisconsin Counties. The habitat found within the WMD is primarily agricultural with a mixture of wetlands, forest, oak savanna, prairie scattered throughout.

Qualifications:

Interested applicants should be physically fit, able to work independently or in small groups, have excellent verbal/writing skills, and have a background in biology, botany, forestry, ecology, GIS, engineer-

ing or a related field. Basic computer skills and a valid driver's license are required. Experience in operating canoes, ATV's, farm equipment, mowers, and GPS and GIS should be noted on resume.

To Apply:

The following must be received by **February 28, 2014**: 1) a one-page cover letter describing personal background and interests, 2) a detailed resume noting education, experience, and skills, 3)

unofficial college transcripts, 4) three references including the name, affiliation, address, telephone, and e:mail address of each person who can be contacted during the inter-

Interns banding geese during the 2013 field season. (Photo By USFWS)

view process. Information should be sent to:
Chris Trosen, Wildlife Biologist, St. Croix WMD, 1764 95th St., New Richmond, WI 54017.
